dachstein@planai.at www.derdachstein.at

3,000 meters of freedom!

The Dachstein is one of the most visited destinations in Styria. And no wonder - it's the first Alpine glacier you encounter coming from the east. Even the approach on the Dachstein Glacier Lift is an experience: you rise 1,000 metres in altitude and pass a mere hair's breadth from steep rock faces. On the Dachstein at 2,700 metres above sea level, you are able to view a fantastic panorama of hundreds of mountain summits. You can also enjoy virtual panoramic views here. The ice palace deep inside the glacier is a mystic world of ice and snow.

Experience stunning views aplenty and the rugged Dachstein massif up close with the Dachstein Panorama gondola ride. The ascent is an unforgettable experience, taking you to breathtaking heights and offering panoramic vistas that will take your breath away.
